

Tell us **your** story!

It is United Response's 50th birthday in October 2023!

We want to tell our story about how we have supported people with learning disabilities, autism and mental health needs over the years.

Some of these stories will be about how things were in the past, when we first started supporting people in the 1970s and 1980s.

Some of the stories will be about how we support people today.

We are looking for people who would like to share their stories with us.

We will **interview** people to get their story. This means we will ask them lots of questions and write down, record or film their answers.

The people doing the interview will also have learning disabilities or autism.

People who can not speak can ask their family or support staff to help them tell their story.

If you want to share your story, please type your details in the boxes below and email it back to:
